WORK EXPERIENCE

Senior Engineer, AI Integrations ServiceNow, India

04/2023 - Present

Hyderabad, India

- Support global enterprise customers across a broad range of ServiceNow modules including authentication, web services, networking, email, IntegrationHub, Workflow Data Fabric, and Conversational AI integrations.
- Provide advanced product support to a global enterprise customer base, ensuring timely and effective resolutions across complex integration and platform issues.
- Diagnose, debug, and resolve critical customer cases through root cause analysis, test environment replication, and cross-team collaboration.
- Drive case deflection, automation, and process improvement initiatives to enhance support efficiency and customer satisfaction.

Engineer, Infrastructure & Integrations Capgemini, India

01/2021 - 04/2023

Bangalore, India

- Managed applications on Unix/Linux environments, relational database administration, web technology, version control. Built infrastructure for frontend and backend servers on Linux integrating components to develop full-fledged Java applications.
- Technical migration of applications from legacy Unix servers to modern Linux servers, including upgrades to Java, MySQL, PostgreSQL, Oracle DB, MQ, CFT, Tomcat, and WebSphere.
- Managed databases (PostgreSQL, Oracle, MySQL) and frontend servers (Apache Tomcat, IBM WebSphere), overseeing installation, administration, performance optimization, troubleshooting, and SSL configuration.
- Collaborated with Development, Testing, and Product teams for seamless CI/CD. Managed Incident, Change, and Problem Management, serving as the final point of escalation. Provided mentorship to junior team members.
